2. Reasons for the revision

With respect to the consolidated earnings forecast for the fiscal year ending March 2026, profit attributable to owners of the parent is expected to exceed the previously announced figure. This is primarily due to an increase in foreign exchange gains resulting from a weaker yen. Accordingly, the Company has decided to revise its earnings forecast.

(Note) The above forecast is based on currently available information and certain assumptions deemed reasonable. Actual results may differ from the projected figures due to various factors that may arise in the future.
